

As a <user role>, I want <feature, functionality> so that <benefit>.

1. As a child, I want a game where I can play music with fun shapes and colors so I'm able to occupy myself
2. As a parent, I want a game where my kids can play with music to learn about different sounds so they can be educated while being entertained.
3. As a guitar player, I want an app to create a backing track so I can play alongside it for fun.
4. As a rapper, I want an app to creatively make a beat so I can rap over it.
5. As a youtuber, I want an app to create a unique audio-visual intro so my viewers will watch and be entertained.
6. As a person who is on a budget, I want a free application that makes music in a fun way to use for my commercials so that way I can bring in more customers.
7. As a music teacher, I want a toy I can have my students use in downtime that will be simple but engaging for elementary school age children.
8. As a store owner, I want an app where I can freely make music to have as background noise for my patrons so they can relax to my creative beats.
9. As a daycare attendant, I want a friendly game on a tablet that can be played by a group of kids so I can focus my attention on other children.
10. As a student, I want to be able to pass my time by creating this music to show to my friends and have them show me their unique beats so I can socialize with them.
11. As an industry worker, I want a small music toy I can pick up during lunch break to keep me occupied.
12. As a babysitter, I want an app I can show my client's children in order to both keep them occupied in a safe manner and allow them to explore the wonders of creating music.
13. As an audio engineer, I want a portable music app I can use to sketch beats and tracks to decide if I want to expand on them later.
14. As a hobbyist game developer, I want a free and easy tool to make last minute background tracks for my game jam submissions.
15. As a hobbyist film maker, I want a tool that I can quickly use to make background music for montage scenes or introductions to my creations.
16. As a user, I want an app that allows me to have a visible grid so that whatever I create is with ease and of little hassle.
17. As a user, I want an app in this style that allows me to draw with my fingertip, so that I'm able to see my creation appear at my fingertips
