Sprint Review 1

- Features implemented
  The basic page layout of the app was started.

- Issues fixed
  No issues have been discovered.

- Implementation review
  (What went well in the implementation, what problems occurred, how problems were solved)
  The setup of the React environment went well with no issues. The basic prototype of the UI layout was also implemented with no problems.

- Changes made.
  Kanban has been established, SRS has been written, user stories have been updated, backlogs have been made, and the implementation has begun.

- Plans for next sprint
  (What will be done for the next sprint)
  All requirements from Deliverable 2 will be fulfilled.

- Scrum Review (What went well in Scrum, what could be improved, and what changes will be made)
  Went well, developers were given their assignments and assignments were done in a timely fashion.
